SEC 602: ORGANISATION AND SUPERVISION OF INSTRUCTION

INSTRUCTION: Answer all questions

TIME ALLOWED: 3 hours

1. Who is a Supervisor? Of what importance is his/her work to the Nigerian school set up?
2. Would you agree through the proper **work** of supervision of teaching that all stated educational objectives and goals can be achieved?
3. Discuss the role of supervision of teaching in the art of creating a good learning environment in the school?
4. In what ways can supervision of teaching be made a "committed to" quality control affairs that will bring about creativity and productivity in the Nigerian schools and not just a mere programme of events or "buffoonery trips/expeditions" tied to habitual obtaining of money by extortion that is the prevalent practice of **some** government officials saddled with the responsibility of supervision and inspection?
5. The child goes into the university as an apprentice of an expert in his/her discipline... , whether as a pharmacist, educationist, chemist, lawyer, social scientist, doctor, dramatist etc. The master would not bend his/her craft to suit the child it is the would-be-expert who would bend himself/herself to the ways of the craft.
In what ways has the supervision of instruction used to bring about quality assurance in higher education in Nigeria?
